

Column name	Description	Function
driver_ID	driver identifier	Primary Key
driver_ref	driver short reference	None
driver_code	driver 3-letter code	None
driver_forename	driver first name	None
driver_surname	driver surname	None
driver_dob	driver date of birth (DD/MM/YYYY)	None
driver_nationality	driver nationality	None

Column name	Description	Function
constructor_ID	constructor identifier	Primary key
constructor_ref	constructor short reference	None
constructor_name	constructor full name	None
constructor_nationality	constructor nationality	None

Column name	Description	Function
race_ID	Race identifier	Primary key
year	Season year in which the race took place	None
round	Round number within the season	None
circuit_ID	Circuit identifier	None
circuit_location	Circuit location (city)	None
circuit_country	Circuit country	None
circuit_name	Circuit full designation	None
quali_date	Qualifying race date (DD/MM/YYYY)	None
quali_time	Qualifying race standard time	None
race_date	Main race date (DD/MM/YYYY)	None
race_time	Main race standard time	None

Column name	Description	Function
result_ID	result identifier	Primary key
race_ID	Race identifier	Foreign key
driver_ID	driver identifier	Foreign key
constructor_ID	constructor identifier	Foreign key
q1_time	Qualifying lap time in Q1 session	None
q2_time	Qualifying lap time in Q2 session (if qualified)	None
q3_time	Qualifying lap time in Q3 session (if qualified)	None
starting_position	Starting position on the grid for the main race	None
race_position	Finishing position in the main race	None
points	Points awarded at the end of the race	None
total_laps	Total laps raced during the main race	None
	Total time raced during the main race (Minutes:seconds.tenths)	
	Caution: as a convention, only winner's time is total, all other times	
total_time	are incremental time compared to winner	None
total_time_ms	Total time raced during the main race (Milliseconds)	None
fastest_lap	Fastest lap time registered in the main race (Milliseconds)	None
status	Status at the end of the race (Finished or any other reason otherwise)	None

Column name	Description	Function
race_ID	Race identifier	Foreign key
driver_ID	driver identifier	Foreign key
lap_num	Lap number	None
position	Position achieved at the end of the lap	None
lap_time	Time it took to finish the lap (Minutes:seconds.tenths)	None
lap_time_ms	Time it took to finish the lap (milliseconds)	None

Column name	Description	Function
driver_standings_ID	Driver standings identifier	Primary key
race_ID	Race identifier	Foreign key
driver_ID	Driver identifier	Foreign key
cumul_points	Cumulative points in the championship after the race	None
cumul_position	Championship position after the race	None

Column name	Description	Function
cons_standings_ID	Constructor standings identifier	Primary key
race_ID	Race identifier	Foreign key
constructor_ID	Constructor identifier	Foreign key
cumul_points	Cumulative points in the championship after the race	None
cumul_position	Championship position after the race	None
